DETAILED ACTION

Claims 55-74 are pending and are considered on the merits.

Claim Rejections – 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action: A person shall be entitled to a patent unless (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent, (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 55 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Amersi *et al.* [U].

Amersi *et al.* disclose treating whole blood with 300ppm CO (page 816, Experimental Design). Whole blood contains platelets.

Claims 55-58, 62-69, 73, 74 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brune *et al.* [V].

Brune *et al.* disclose a method of gassing PRP or washed platelets resuspended in a bicarbonate buffer with pure CO (Materials and Methods).

Allowable Subject Matter

Claims 59-61, 70-72 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
